

About Us

Allegra M. Jabo, Founder

Ms. Allegra has a M.S. in Geology and a B.S. in Biology and has worked in a variety of science jobs over the years, ranging from teaching marine science to elementary students in the FL Keys to doing coral reef research at the Smithsonian Institution. Wanting a positive first science experience for her daughters, Ms. Allegra began teaching at their preschool in 2007 and the birth of The Science Seed™ concept began.

The Science Seed™ program is now taught in more than 20 local preschools and elementary schools by our team of experienced teachers.

*VIRTUS trained teachers available

*INSURED.
General Liability certificates available as proof of coverage.

Testimonials

"We loved having The Science Seed enrichment class in our preschool. ...The Science Seed leaders are excellent educators, using a hands on approach and a variety of activities to hold the interest of our 3 and 4 year old friends! Their flexibility, knowledge of the subject matter, and mindfulness of our kid's ages and energy was invaluable. Each of our 10 weeks was better than the last! Every lesson was well planned and executed and the children had a great time... We are already looking forward to next year!"

**– Dina Backer, Director
JCCNV-Beth El Preschool, Alexandria**

"One of my daughter's favorite parts of preschool was the science lessons..."

-Heather Nemirow, parent

"I love the fact that The Science Seed classes send home brief descriptions with the kids about the day's lesson..."

-Darcy Troutman, parent

"I was really impressed by The Science Seed's ability to get kids excited about science. Thanks to their classes, my daughter now looks for and sees examples of "science" everywhere in the world around her..."

-Rose Breyault, parent
