

PHCP APRIL NEWSLETTER

News from the Director

Spring is here! There is new life all around us. Young children are curious, inclined to explore, and eager to learn about the world around them. They have learned that God made them and He has a purpose for their life. They also learned that God created the world. Nature has a way of teaching us about God. Our caterpillars will be arriving soon. Each class will be able to watch and observe the changes and the transformation of caterpillars to butterflies. The children will also be studying insects, plants, flowers and life cycles this month.

Life cycles are all around us. They are part of us and part of every living thing. Teaching children by illustrating the life cycle process can be very important. It can help them respect and care for life around them. By observing the different stages in the life cycle children will begin to understand the concepts of birth, growth and death. Teaching children about how life changes can enhance their self-understanding and provide an opportunity for them to ask questions they would not normally ask.

Children naturally love to learn at this age. It has been wonderful to see how they have grown during the school year! There are no conferences at the end of the year, however, if you would like to have one, please contact your child's teacher. We are looking forward to doing more activities outdoors as the weather gets nicer. Please apply sunscreen and bug spray before coming to school if you think your child needs it. Thank you again for partnering with us to help your children become life-long learners!

God's Blessings,
Mrs. Jenne

Thank you! Thank you! Thank you parents for our lovely Paris luncheon and all the special treats we received in March!! We really enjoyed it!

Important Dates

- April 16—Parent Group Meeting
- April 16—Scholastic Orders Due

Plans are underway for a scaled down
Spring Spectacular sometime in May.
Stay tuned for more details!

PARENT NEWS

Hi PHCP Families!

April is upon us! I am hopeful you have been able to get out and enjoy the beautiful weather and enjoy as all of God's creation has come alive!

Thank you to everyone who made teacher appreciation week a success. We were able to transport the teachers to a week in Paris, with the special post cards from your children, a pastry and coffee breakfast and topped the week off with a luncheon. With your generous donations, we were able to give each teacher a nice gift card to treat themselves. We really appreciate all of you and our teachers for such a successful year in such challenging times!

We will be having a Parent Group meeting on Friday, April 16th after drop off in the courtyard! We really hope you can join us! We will be talking about the Spring Spectacular and deciding on the date and location. We will have a lower key version of the Silent Auction this year with a raffle and class baskets. If you or your family have anything fun that you would be willing to donate to the silent auction, please send an email to Allison Bryant, allison.k.bryant@icloud.com.

We have some exciting events this month! We will be providing the supplies for the children to have a Spring Planting day and learn how seeds grow into flowers! We will be planting the garden by the playground with some colorful flowers. More details on an exact date in the weekly emails from Sue Murphy.

Mark your calendar for Thursday, April 29th for McAlister's day to support the PHCP Parent Group.

We are excited for what is in store for the rest of the school year!

Many blessings!
Allison Bryant
